Dressage Rules

Lameness. In the case of marked lameness, the judge informs the rider that he/she is eliminated. There is no appeal against the decision. If there are any doubts to the soundness of a horse, the competitor will be allowed to complete the test and any unevenness of pace will be severely penalised.

Scoring. The Judge will allot from 0 to 10 marks for each numbered movement and collective scores. These marks are then added together and any penalty marks are deducted from the individual's sheet to find the final score. The percentage score will be calculated from this figure.

Ties. In the event of equality of total marks, the higher total of collective marks shall be given the higher placing. If that total is also the same, the competitors will be given the same placing.

Team Competition Results. When all tests have been totalled, the competitors in each arena shall be placed in order. Points shall be awarded to each competitor depending on their placing (1st = 1 point, 2nd = 2 points etc) in each arena.

The points for the three best-placed team members shall be added together to give the team score. The winning team will be the one with the lowest score. In the event of equality of team scores, the collective scores of the three best placed members are added together for each team, and the highest wins. In the event of equality of collectives, the result will be deemed a tie.

For further details please see Part 1, page 29, item 33 of the PC Dressage Rule Book 2020.

Individual Ride Off. The top two individuals from each arena will go through to the Ride Off. This test will determine individual prizes from 1st to 8th place.

Show Jumping Rules

Team Results. Two round competition. The total of the best three scores for a team in each round to count, the discard in each round may or may not be from the same competitor. In the event of equality for first place (only), there will be one jump off against the clock with all members of the teams concerned taking part (including those eliminated in previous rounds). The total of the best three scores in this round will determine the winner; in the event of a tie, their aggregate times decide.

The aggregate times will be taken of the best three in each team in the second round to determine minor placings of those not engaged in jump off.

Individual Two round competition with all team members automatically taking part; individuals not in teams will jump last. Scores from both rounds to count. Those tied for equal first after two rounds will qualify for the jump-off against the clock. In the event of a tie times will count. Minor places not included in jump off will be decided by total faults followed by timing in second round.

Note. If an individual qualifies for both Team and Individual Jump Off, (s)he will only jump off once.

For further details please see Page 38, items 36 and 37 of the PC Show Jumping Rule Book 2020.

Horse Trials Rules

Order. All competitors must complete dressage, show jumping and cross-country in that order. All competitors in the same class must complete the three phases in the same order.

Dressage Test. Pony Club Grassroots Dressage Test 2018

Unaffiliated. This event will be run according to BE90.

Individual results. Penalties for all three phases added together to give final score for the competition. In the event of a tie, the classification is decided by the best cross-country score. If still equal, the best dressage score will win. If scores are still level it will be deemed a tie.

Team Results. The lowest three scores of each team are counted. These are added together to give the team's final score. The team with the least penalties for being the winner. If fewer than three members of a team complete the competition there is no team score. In the event of a tie, the classification will be decided by the best cross-country scores combined, and, if still equal, best combined dressage scores.
